

# South Howser Rappel Route

new in 2009

Rap Route loosely follows the North Ridge but veers down the East Face without visiting the South-Central col.

- from summit, two options to start: (a) short rap from chains on back side of summit block (#1) then short rap from chains along ridge (#2); or (b) short 5<sup>th</sup> class downclimb to access rap #3
- 11 rappels from bolted stations, up to a full 30m in length.
- 70m rope preferable
- critical rappels #3 and #6 go climber's left of fall line
