

Rambles

4 pitches, 5.8 Base of the Apron

cleaned: J. Frimer, G. Corbett, C. Eduljee,
R. Nason, N. Corbett

FA: J. Frimer, G. Corbett, C. Eduljee April 2012

A moderate, well-protected crack & face climb with short cruxes and bolted belays. A good beginner multipitch lead in its own right. Or *Rambles* + *Diedre* make for a 10-pitch 5.8 outing.

Rappel descent with a single rope is available.

Location: on the lower Apron, left of Bottom Line

Approach: From the Apron Parking Lot, walk south along the Apron Connector Trail for 60m. Turn uphill on an obvious spur to arrive at the base.

Rack: standard rack to 2"

Pitch 1. 5.7. 25m. 1 bolt + gear.

Climb a shallow corner (5.6) to its top. Make a 5.7 face move past a bolt then pad easily to the anchor.

Pitch 2. 5.7. 25m. 2 bolts + gear.

Walk horizontally to the right on a crack (5.4). At a bulge, hand traverse (5.7) to reach a scoop. Climb cool edges past 2 bolts to a second 5.7 move and the anchor.

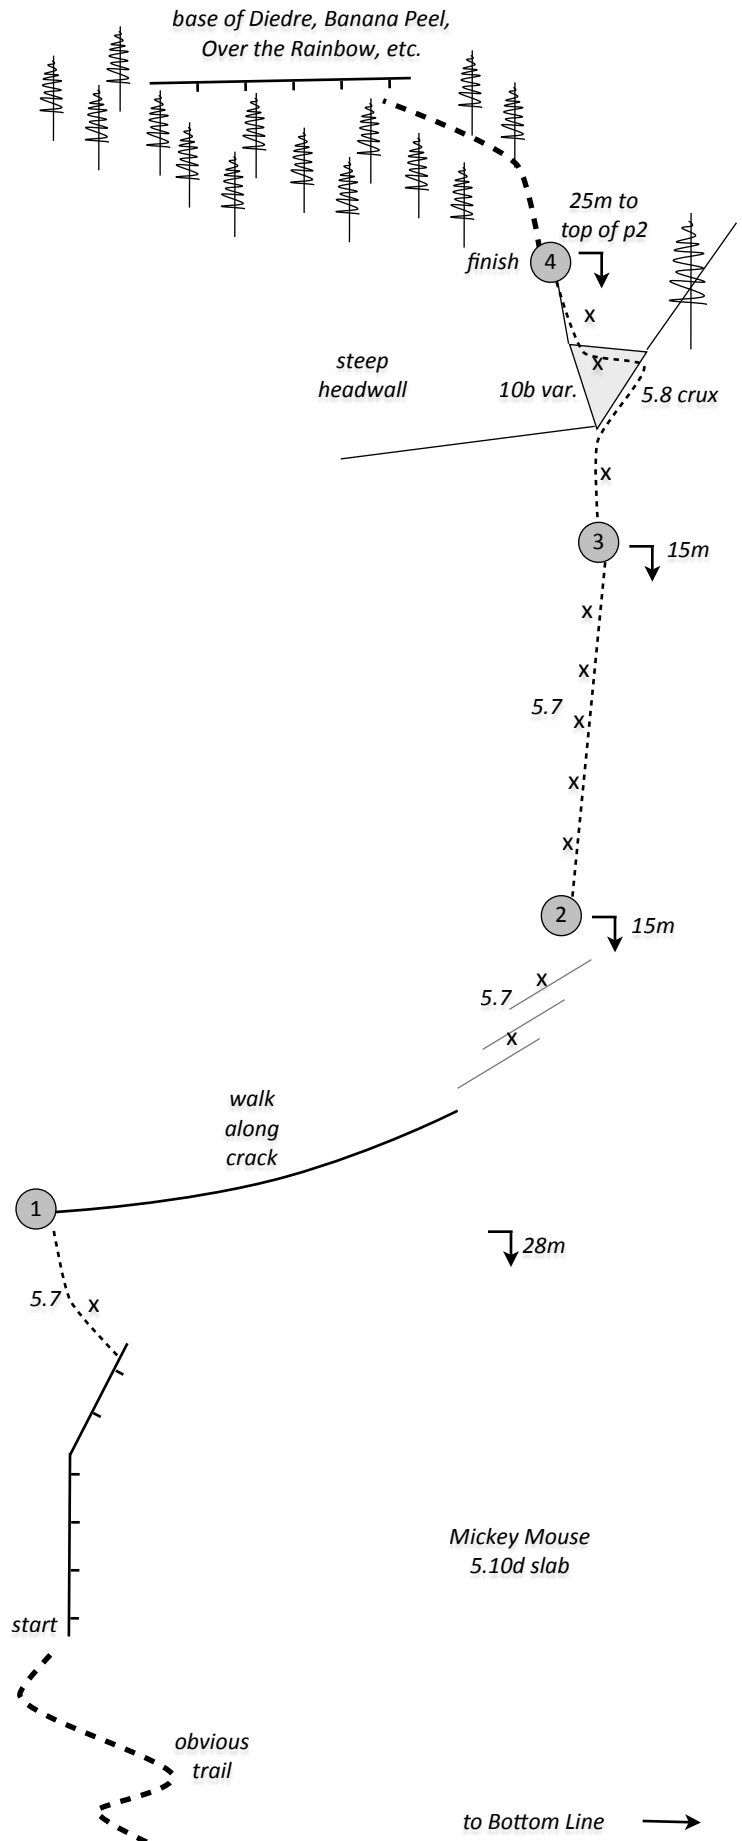

Pitch 3. 5.7. 20m. 5 bolts.

Ramble past several overlaps on positive edges and a few pad moves.

Pitch 4. 5.8. 10m. 3 bolts + gear.

Pad past a bolt to the base of triangular block at the base of a steep headwall. Move right to the right corner of the block. Next is the burly crux. Hand traverse left on big jugs and small feet for 2m. (Beta: match feet then kick your left foot far left)

Scramble through the forest for 10m to reach the base of *Diedre*, *Banana Peel*, and the other climbs of the mid-Apron.
